Thank you for a wonderful evening of magic! Your visit was the icing on the cake. Looking around the room, seeing all the delighted facial expressions and listening to the laughter, I knew that you had more than lived up to your press notices. You are more than a magician.

National Association - Technology

You have always maintained a very professional and polished image, one that is in line with our corporate values. I especially appreciate the way that you work a crowd but don't become obtrusive or try to dominate the room. You can be certain we will be using you many times in the future for our V.I.P. functions.

International Hotel Corporation

Well, you wowed them again! Your participation during the Networking Reception at our Annual Meeting was a resounding success. We thought that it would be difficult for you to top last year's performance, but you more than met the challenge.

National Association - Healthcare

You're a talented performer and an excellent people person. I can't say enough about how beneficial your involvement was to our success. Charles, you were better than I expected and I expected a lot.

International Conference - Energy

25 YEARS OF CORPORATE PRESENTATION EXPERIENCE
